

Scaling Up:

CareRev's Multifaceted Approach to Recruiting & Credentialing

We understand that the performance of clinical professionals is key to your facility's success. At CareRev, we recruit strategically to diminish turnover rates and ensure the highest level of confidence in our candidates before they ever walk through your door.

FROM RECRUITING TO CREDENTIALING

CareRev requires all of our clinical professionals to have a **valid, current American Heart Association Basic Life Support (AHA BLS) certification**

Our credentialing experts develop **additional requirements based on specialty and your facility's specific needs**

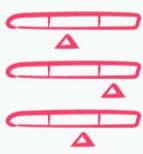

We've partnered with **Checkr**, a nationally recognized and accredited organization, to complete **all background checks, employment verifications, and drug screenings**

Candidates are vetted through all **global watchlists** as well as **federal, state, and county criminal and civil records**

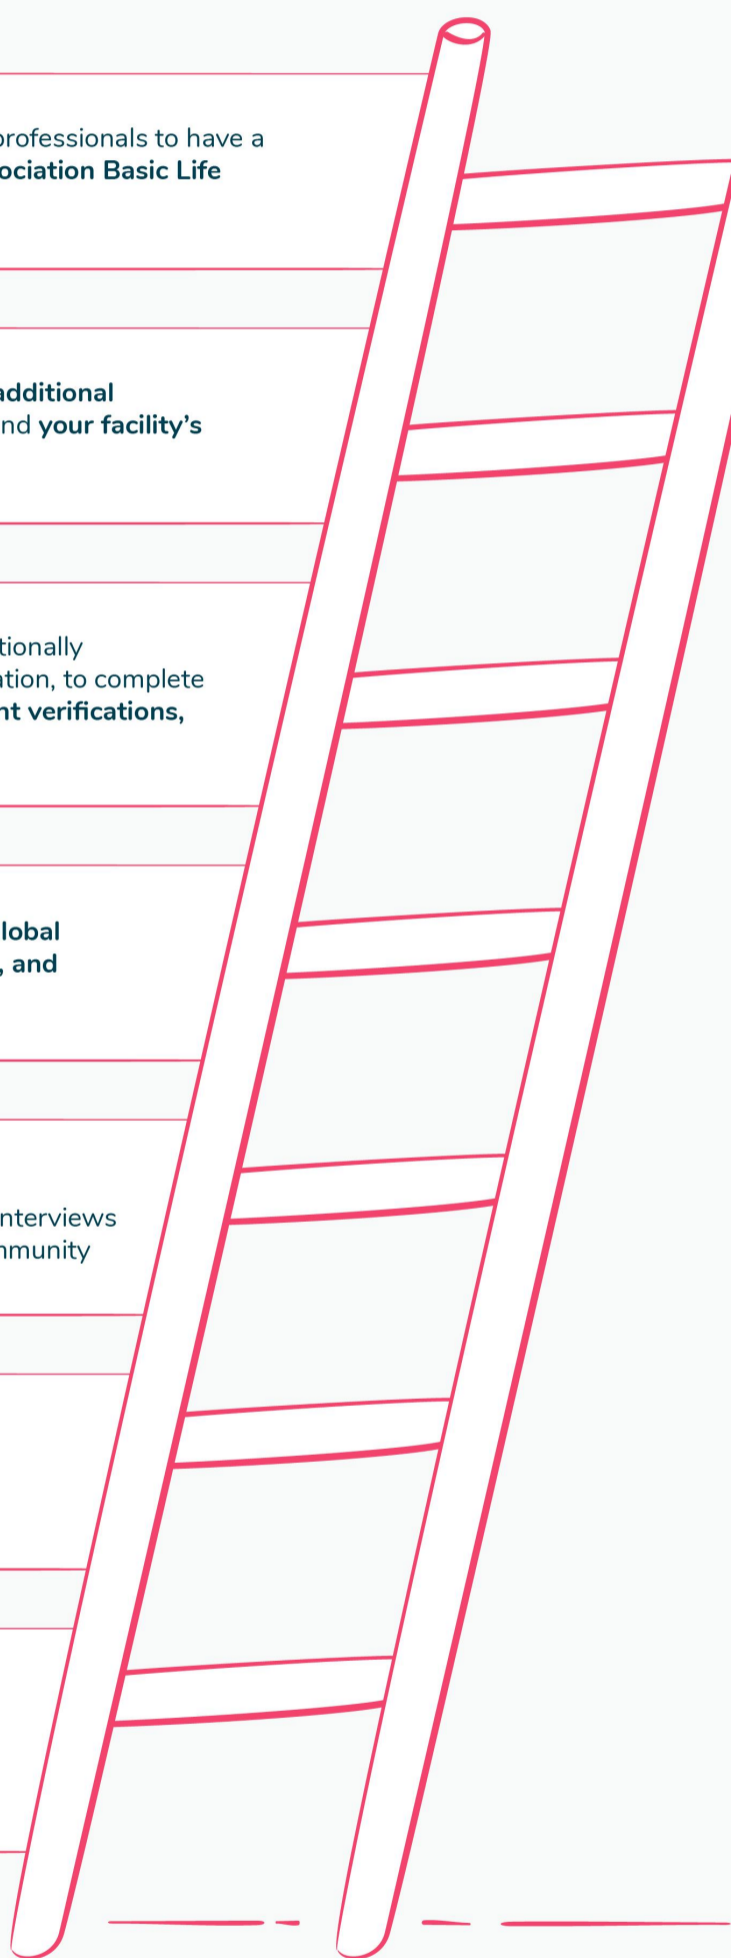

CareRev's team of **experienced, multi-specialty clinicians** conduct interviews with professionals local to your community

Interviews focus on thoroughly assessing for **professionalism and experience level**

We hone in on **clinical expertise and critical thinking skills** with **scenario-based competency questions**

Create a resilient workforce with CareRev
